DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3 rejected under 35 U.S.C. 102(b) as being anticipated by Farrar, Jr. (U.S. Patent No. 4,073,290). Farrar, Jr. discloses a pelvic traction belt (10) for treating a patient while lying on a bed (50). The belt (10) comprising a back portion (20) and opposing end portions (14, 16) and traps (30) having buckles (32) for coupling the ends (14, 16), thereby forming a circumferential section (12). Figure 3 illustrating the belt (10) in its buckled form having side sections (18). The belt (10) further comprising a traction tail (22) which urges the back portion (20) and the circumferential section (12) to move toward the pelvis.

Allowable Subject Matter

Claims 2 and 4-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3743
